

# SIGMA SECURE BLOWN

## Premium Grade, Highest Load-Holding & Puncture, Best for Heavy Loads

**SECURE BLOWN** combines extraordinary load-holding force with exceptional puncture and tear resistance to create a film which excels in capturing and holding heavy B and unstable C loads. The film's aggressive cling package promotes the bonding of all layers and eliminates tailing. It performs well in cold environments and its low-gloss surface improves scanning capabilities. This blown film's containment advantage means 15% to 25% less film usage versus typical cast, broad application films. Achieve the load security you require with less film.

**SECURE BLOWN** — the containment solution for tough loads!

### SIGMA SECURE

#### Applications Include:

- Heavy Bagged Products
- Brick and Block
- Unstable "C" Loads
- Magazines and Papers
- Roofing Materials
- Extra Heavy Loads

 **Sigma Stretch® Film**
