

SIGMASUMMITCAST

Ultra-Premium, One-Side Cling with Easy Unwind for High Speed Machines

SUMMIT CAST is Sigma Stretch Film's newest, ultra-premium, one-side cling, up to 300% pre-stretch, cast co-extruded film.

Easy unwind assures great machinability on all high speed automatics, overheads and bundling applications. Yet the uncompromising state-of-the-art cling package promotes the bonding of all film layers at all pre-stretch levels, while the no-cling surface offers the ability to maximize warehouse space and cube-out trucks. This film offers high elongation, exceptional puncture and tear resistance, along with excellent load-holding force. Thin gauge Summit competes head-to-head with competitor's Ultra-Premium films in many down-gauged applications.

Achieve the critical performance that you demand over-and-over again!

SUMMIT CAST — the definitive high-volume, high-performance film solution!

SIGMASUMMIT

Applications Include:

- Bagged Products
- Boxed Products
- Light Weight Containers
- Windows and Doors
- Extruded Products
- Vinyl Siding
- Fully Automatic Equipment
- High Speed Overhead Equipment
- Bundling Applications
